Where Climate Is Heading download or read online Climate Central PDF gratuito per e-book / ePub / Mobi / Mp3 / Txt, A selection from the much-praised climate change primer *Global Weirdness*, written by Climate Central, the nonprofit, nonpartisan source for all things climate-related: a straightforward, unbiased, peer-reviewed, roll-up-your-sleeves practical account of what we can expect from climate change in the future.

Over the last several decades, human greenhouse gas emissions have begun to change the global climate. We know this for a fact, as we know other facts like the existence of CO<sub>2</sub> in the atmosphere caused by burning fossil fuels such as coal, oil and natural gas; the rising levels of that CO<sub>2</sub> in the atmosphere; the rising temperatures and sea levels across the globe. But what concrete facts do we know about the future of climate change? In “Where Climate is Heading,” Climate Central provides the best depiction we have of how our planet is likely to be affected by climate change over the coming years. This is a primer for the future, about what to expect in

a changed world—the future of hurricanes, the movements of populations, the new normal for food supplies. Nuanced and careful, this is essential reading for every voter and citizen of Planet Earth, an unprecedented chance to peer into the future, accurately.

An eBook short.
