'Compelling, addictive...brilliant' B A Paris

It was just a party. But it turned into a nightmare.

When Rachel wakes up in a strange room, the morning after a neighbour's party, she has no memory of what happened the night before. Why did her husband leave her alone at the party? Did they row? Why are Rachel's arms so bruised? And why are her neighbours and friends so vague about what really happened?

Little by little, Rachel pieces together the devastating events that took place in a friend's house, at a party where she should have been safe. Everyone remembers what happened that night differently, and everyone has something to hide. But someone knows the truth about what happened to Rachel.

And she's determined to find them.

The Party is the gripping new novel from bestseller Lisa Hall.

LISA HALL loves words, reading and everything there is to love about books. She dreamed of being a writer since she was a little girl and after years of talking about it, was finally brave enough to put pen to paper (and let people actually read it).
